ARTICLE 1 - PURPOSE

The purpose of the Dealing Code is to ensure that the members of the Board of Directors (the “Board”) of Hybrid Software Group PLC (the “Company”, and together with its subsidiaries, the “Group”), the Group’s Employee Insiders (as defined in article 2 of this Dealing Code), as well as the Group’s Potential Employee Insiders (as defined in article 2 of this Dealing Code) and all persons connected with them, do not abuse, do not place themselves under suspicion of abusing, and maintain the confidentiality of, Inside Information (as defined in article 2 of this Dealing Code) that they may, or may be thought to, have access to, notably in periods prior to an announcement of interim or year-end financial results by the Company.

The same also applies to Relevant Third Parties (as defined in article 2 of this Dealing Code) whom, through their specific relationship with the Group, may also have access to such Inside Information.

Inside Information: any information of a precise nature which has not been made public by the Company, relating directly or indirectly to the Company or Group, its Financial Instruments or the trade in the Company's Financial Instruments, and which, if it were made public, would be likely to have a significant effect on the price of those Financial Instruments, or could influence investors' decisions to purchase or sell those Financial Instruments. Information is deemed to be precise if: (i) it indicates a set of circumstances or an event that has occurred or is likely to occur, and (ii) a conclusion may be drawn as to the likely effect of such set of circumstances or event on the prices of the Company's Financial Instruments. Information which, if it were made public, would be likely to have a significant effect on the prices of the Company's Financial Instruments is information that a 'reasonable' investor would be likely to use as part of the basis of his or her investment decisions in the Company's Financial Instruments. Further guidance on Inside Information, including examples thereof, is provided in Appendix 1 to this Dealing Code.

ARTICLE 3 - USE OF INSIDE INFORMATION

A Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider of the Group **SHALL ABSTAIN** from using Inside Information they may have by acquiring or disposing of, or by trying to acquire or dispose of, for their own account or for the account of a third party, either directly or indirectly, financial instruments of the Company.

They shall also refrain from disclosing Inside Information to any third party otherwise than in the normal course of his or her employment, profession or duties², or for a purpose other than that for which Inside Information was disclosed to them, and, as a result of being in possession of such Inside Information, recommend or advise a third party to Deal or not to Deal, or assist anyone who is engaged in Dealing in the Company's Financial Instruments.

These abstention requirements also apply to any person who holds Inside Information and knows, or should know, that it is Inside Information.

ARTICLE 4 - PROHIBITION TO DEAL IN THE COMPANY'S FINANCIAL INSTRUMENTS

4.1 When in possession of Inside Information

² Before doing so, you are requested to advise the Company's CEO and CFO in writing (e-mail is encouraged), unless you are prohibited to do so.

A Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider **SHALL NOT DEAL** in the Company's Financial Instruments (i) during a Closed Period, (ii) at any time when he or she is in possession of Inside Information, and (iii) when clearance to Deal has not been given in accordance with applicable provisions of article 5 of this Dealing Code.

4.2 On considerations of a short-term nature

In addition, a Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider **SHALL NOT** Deal in the Company's shares on considerations of a short-term nature. In that respect, any purchase or sale of the Company's shares **within a period of a minimum of 185 calendar days** after having sold or purchased such shares will be deemed a Deal made on considerations of a short-term nature.

The above-mentioned prohibition **SHALL NOT** apply to new shares issued as the result of the exercise of an equal number of option rights by a Board member, the Company Secretary, an Employee Insider or a Potential Employee Insider (thus allowing a sale of the corresponding shares immediately or shortly after these have been issued), provided that the following three cumulative conditions are met:

- the exercise of share options and the subsequent sale of newly issued shares do not occur in a Closed Period;
- clearance to such sale of shares has been given in accordance with applicable provisions of article 5 of this Dealing Code; and
- such sale will not create any potential or actual liability for the Group as a result of the decision of the Board member, the Company Secretary, the Employee Insider, or the Potential Employee Insider to sell such shares.

4.3 By connected persons and investment managers

So far as is consistent with his or her duty of confidentiality to the Group, a Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider shall seek to prohibit any Dealing in the Company's Financial Instruments during a Closed Period, or at a time when he or she is in possession of Inside Information and is prohibited from Dealing (as such Dealing would fall within a Prohibited Period):

- by, or on behalf of, any person connected with the Board member, the Company Secretary, the Employee Insider, or the Potential Employee Insider, notably including, but not restricted to, his or her spouse, his or her children living at his or her home and other relatives; or
- by an investment manager on his or her behalf or on behalf of any person connected with him or her, where either he or she or any person connected with him or her has funds under management with that investment manager, unless such investments are managed on a discretionary basis.

For the purpose of this rule, a Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider shall advise all such connected persons and investment managers:

- of the fact that he or she is a Board member, the Company Secretary, an Employee Insider, or a Potential Employee Insider of the Group;
- of the Closed Periods during which they cannot Deal in the Company's Financial Instruments;
- of any other periods when the Board member, the Company Secretary, the Employee Insider or the Potential Employee Insider is aware that he or she is not himself or herself allowed to Deal in the Company's Financial Instruments under the provisions of this Dealing Code, unless his or her duty of confidentiality to the Group prohibits him or her from disclosing such periods; and
- that they must advise him or her immediately after they have Dealt in the Company's Financial Instruments.

4.4 Specific prohibitions

4.4.1 Applicable to the grant of share options

The Company will not grant share options:

- in the ten trading day period immediately preceding and following the date when the Company releases its statutory or consolidated results for a given financial year; and

- in the period during which the Board is in possession of Inside Information and the expiry of the ten trading day period following the date when such information is made public by the Company.

4.4.2 Applicable to the disposal of free shares (including SIP Matching Shares)

It is prohibited to dispose of free shares (including SIP Matching Shares, as applicable) during the same periods as those indicated in article 4.4.1 above.

4.4.3 Short selling

Short selling any of the Company's Financial Instruments is prohibited at any time.

ARTICLE 5 - CLEARANCE TO DEAL

A Board member, the Company Secretary, an Employee Insider or a Potential Employee Insider **SHALL NOT** be given clearance to Deal in any of the Company's Financial Instruments during a Prohibited Period.

In other periods, the **following procedures must be strictly adhered to:**

5.1 Board members and Company Secretary

ARTICLE 6 - EXCEPTIONAL CIRCUMSTANCES

In certain exceptional circumstances, where it is the only reasonable course of action available to a Board member, the Company Secretary, an Employee Insider or a Potential Employee Insider, clearance may be given for him or her to **SELL BUT NOT TO PURCHASE** the Company's shares (including when such shares would result from the exercise of share options) when he or she would be prohibited from doing so as such Dealing would fall within a Closed Period.

The determination of whether circumstances are or not exceptional for this purpose shall only be made by the Chairman of the Board, together with the CEO or the CFO.

A typical example of the type of circumstances which may be considered exceptional for these purposes would be a pressing financial commitment on the part of the Board member, the Company Secretary, the Employee Insider or the Potential Employee Insider, which cannot be otherwise satisfied.

ARTICLE 7 - COMPLIANCE OF RELEVANT THIRD PARTIES WITH THE DEALING CODE

The Company's CFO is responsible for bringing to the attention of Relevant Third Parties that they are considered as such, and that they must comply with the terms and provisions of this Dealing Code as though they were Board members, Employee Insiders or Potential Employee Insiders.

ARTICLE 10 - SUMMARY OF APPLICABLE LEGAL AND REGULATORY PROVISIONS TO DEALING

See Appendix 4 to this Dealing Code for further details.

APPENDIX 1 - PRICE-SENSITIVE INFORMATION

Whether or not information can be considered as price-sensitive depends on factors specific to each company, such as its size, recent history and sector of activity. Market sentiment can also have a marked effect on price sensitivity. Given these considerations, it is not possible to produce one definition of price sensitivity that takes all of these factors into account. For the same reason, it is impossible to indicate what percentage increase or decrease in the Company's share price may qualify as a **significant impact** on prices.

Given the diversity of the factors that determine whether or not information is price-sensitive, the Company's management is considered to be the best judge of sensitivity. The criterion that should apply is whether specific information can be expected to have a **significant impact** on the price of the Company's shares.
